

Chi-meegwetch to all the CAPC and CPNP workers who took the time to complete the Healthy Weights Needs Assessment Survey. I know that you are very busy and appreciate you taking the time to fill it out. The 57 surveys returned are now being analysed and the results will provide us with the information for developing healthy weights resources and training.

A draw was held with the names of those who completed the Needs Assessment Survey for a prize for their program. The winner was Wanda Trott-Nahdee, CAPC worker from N'Amerind Friendship Centre for Windsor Project. Congratulations Wanda.

Again, to all the CAPC/CPNP workers, thank you for completing the Needs Assessment survey and supporting the Healthy Weights Project

Alta Fenton  
Healthy Weights Project Coordinator

Alta Fenton, Healthy Weights Coordinator with Marilyn Junnila, Executive Director, who drew Wanda's name for the Needs Assessment Draw Prize
